# OUR MISSION

## OUR CONNECTIONS

- Students and Alumni
- Services within the U.Porto
- Higher Education Institutions
- (Inter)national organizations
- Public bodies and companies
- Families

Establishing links among students, alumni, companies, internal services, external partners, and various stakeholders to foster connections and collaboration.

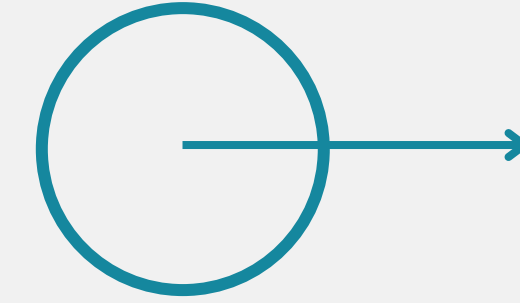

**Creating career communities** as a framework to broaden students' awareness of diverse functional roles, employer organizations, and industries that align with their individual strengths and interests.

# THE GOALS WE WANT TO REACH

01

Map and disseminate good practices developed by the services of the University, as well as other companies, that contribute to the promotion of employability.

02

Challenge services and companies to reflect on the demands and trends in the labor market and in the area of career development, and to co-construct innovative initiatives.

## SO... HOW DO WE ACHIEVE OUR GOALS?

- Organizing projects with U.Porto's faculties and services, students' unions and companies/organizations
- Promoting meetings for sharing practices in the promotion of employability and sustainable careers
- Participating in (inter) national projects and networks/consortiums
- Nurturing partnerships with (inter)national companies/organizations and other public and private stakeholders
- Maintaining the U.Porto's Employment Observatory – to keep up with the graduates' employment situation

# SO... HOW DO WE ACHIEVE OUR GOALS?

- Developing and implementing career intervention programmes, training courses and workshops related to career and skills development
- Organizing workshops aimed to prepare students for job opportunities, internships, and selection interviews with employers
- Promoting moments for sharing and networking between students and graduates integrated into the workforce
- Conducting Vocational Guidance, Career Management Counselling and Career Facilitation for students/alumni
